**Subject: 2012 Annual Remedy Effectiveness and Performance Monitoring Report
Clean Harbors PPM, LLC, Coffeyville, Kansas Facility
RCRA ID# KSD981506025**

Dear Mr. Herstowski,

Submittal of annual remedy effectiveness and performance annual reports for the Clean Harbors PPM, LLC Facility is required by the facility's United States Environmental Protection Agency (EPA) Hazardous Waste Management Permit (RCRA ID# KSD981506025). The annual report for 2012 would normally be due on March 1, 2013. However, all corrective action activities conducted in 2012 will be presented and discussed in the forthcoming Corrective Measures Implementation 5-Year Review Report for the subject facility. The 5-Year Review Report will present the results of implementing the EPA-approved Corrective Measures Implementation 5-Year Review Work Plan (AECOM 2011), which began in late 2011 and continued into 2013. Clean Harbors therefore requests EPA approval to submit the 5-Year Review Report in lieu of a separate annual report for 2012. Our goal is to submit the 5-Year Review Report to EPA by March 15.

Thank you for your understanding and cooperation.

Yours sincerely,

Gregg Somermeyer, PE
Senior Engineer/Project Manager
